GDG Cloud San Fernando Valley

July 11, 2023

Code of Conduct

GDG Cloud San Fernando Valley is dedicated to providing a harassment-free and inclusive event experience for everyone regardless of gender identity and expression, sexual orientation, disabilities, neurodiversity, physical appearance, body size, ethnicity, nationality, race, age, religion, or other protected category. We do not tolerate harassment of event participants in any form. We take violations of our policy seriously and will respond appropriately.

All participants must abide by the following policy:

1. **Be excellent to each other.** We want the event to be an excellent experience for everyone regardless of gender identity and expression, sexual orientation, disabilities, neurodiversity, physical appearance, body size, ethnicity, nationality, race, age, religion, or other protected category. Treat everyone with respect. Participate while acknowledging that everyone deserves to be here -- and each of us has the right to enjoy our experience without fear of harassment, discrimination, or condescension, whether blatant or via micro-aggressions. Jokes shouldn't demean others. Consider what you are saying and how it would feel if it were said to or about you.

2. **Speak up if you see or hear something.** Harassment is not tolerated, and you are empowered to politely engage when you or others are disrespected. The person making you feel uncomfortable may not be aware of what they are doing, and politely bringing their behavior to their attention is encouraged. If a participant engages in harassing or uncomfortable behavior, the event organizers may take any action they deem appropriate, including warning or expelling the offender from the event with no refund. If you are being harassed or feel uncomfortable, notice that someone else is being harassed, or have any other concerns, please contact a member of the event staff immediately.

3. **Harassment is not tolerated.** Harassment includes, but is not limited to: verbal language that reinforces social structures of domination related to gender identity and expression, sexual orientation, disabilities, neurodiversity, physical appearance, body size, ethnicity, nationality, race, age, religion, or other protected category; sexual imagery in public spaces; deliberate intimidation; stalking; following; harassing photography or recording; sustained disruption of talks or other events; offensive verbal language; inappropriate physical contact; and unwelcome sexual attention. Participants asked to stop any harassing behavior are expected to comply immediately.

4. **Practice saying "Yes and" to each other.** It's a theatre improv technique to build on each other's ideas. We all benefit when we create together.

Special Thanks

Gino's East of Chicago

Voted Best Pizza in Los Angeles by LA Times readers!

Google Developer Groups

- Not part of Google, but get some perks
- Learn new skills
- Meet new people
- All are welcome
- Community Led - All Volunteer
- Of the Community, By the Community, For the Community
  - Name your topic
 - Give a talk
  - Present your work

What is Google I/O

Keynotes

Tune in to the keynotes for product news and updates from Google. Dive deeper with on demand technical sessions.

Learning material

Learn and apply the latest Google technology and announcements through self-directed codelabs and guided workshops.

Fun

Meet developers from around the world, visit another city, attend a party, get some free swag.

Recap Video

Grab some food, a drink, sit back and watch

Highlighted developer topics

Mobile

Develop for a range of audiences and form factors

1. Multi-Device Development
2. Large Screen Apps
3. App Quality
4. Compose & Modern Android Development

Web

Create fast, secure sites and apps for the open web.

1. Authentication: Passkeys + FedCM
2. Performance: Core Web Vitals top recommendations + INP
3. Advanced Apps: WASM & WebGPU
4. Next Paint (INP)

AI

Bring the power of machine learning to apps and workflows.

1. Keras
2. Large Language Model APIs and MakerSuite
3. Bard
4. Responsible AI (1, 2)
5. TFX and ML Engineering
6. TensorFlow Recommendations
7. MediaPipe , TFLite and On Device ML

Cloud

Simplify and scale end-to-end development.

1. Scaling LLMs in Cloud session (Vertex AI)
2. Cloud Firestore: New features for development ease and migrations
3. Cloud Workstations & Modern IDEs: Remote Development that Feels Local
4. Data input, ML output, anytime, anywhere with Google Cloud
5. Extend Google Workspace using apps, APIs, and workflows
