Housekeeping

Code of Conduct

The GDGs of Greater Los Angeles are each dedicated to providing a harassment-free and inclusive event experience for everyone regardless of gender identity and expression, sexual orientation, disabilities, neurodiversity, physical appearance, body size, ethnicity, nationality, race, age, religion, or other protected category. We do not tolerate harassment of event participants in any form. We take violations of our policy seriously and will respond appropriately.

Housekeeping

All participants must abide by the following policy:

1. Be excellent to each other. We want the event to be an excellent experience for everyone regardless of gender identity and expression, sexual orientation, disabilities, neurodiversity, physical appearance, body size, ethnicity, nationality, race, age, religion, or other protected category. Treat everyone with respect. Participate while acknowledging that everyone deserves to be here -- and each of us has the right to enjoy our experience without fear of harassment, discrimination, or condescension, whether blatant or via micro-aggressions. Jokes shouldn't demean others. Consider what you are saying and how it would feel if it were said to or about you.

2. Speak up if you see or hear something. Harassment is not tolerated, and you are empowered to politely engage when you or others are disrespected. The person making you feel uncomfortable may not be aware of what they are doing, and politely bringing their behavior to their attention is encouraged. If a participant engages in harassing or uncomfortable behavior, the event organizers may take any action they deem appropriate, including warning or expelling the offender from the event with no refund. If you are being harassed or feel uncomfortable, notice that someone else is being harassed, or have any other concerns, please contact a member of the event staff immediately.

Housekeeping

All participants must abide by the following policy:

3. Harassment is not tolerated. Harassment includes, but is not limited to: verbal language that reinforces social structures of domination related to gender identity and expression, sexual orientation, disabilities, neurodiversity, physical appearance, body size, ethnicity, nationality, race, age, religion, or other protected category; sexual imagery in public spaces; deliberate intimidation; stalking; following; harassing photography or recording; sustained disruption of talks or other events; offensive verbal language; inappropriate physical contact; and unwelcome sexual attention. Participants asked to stop any harassing behavior are expected to comply immediately.

4. Practice saying "Yes and" to each other. It’s a theatre improv technique to build on each other’s ideas. We all benefit when we create together.

GDG Benefits

1. Meet amazing people
2. Free training
3. Learn new skills
4. Access to cloud credits
5. Opportunities to attend Google Events
6. Possibility to get publicity/recognition by Google

GDG Requirements

1. Sign an NDA
2. Follow code of conduct
3. Volunteer consistently
4. Organize 4+ meetups per year
5. Co-organize annual DevFest and IWD Events

Redeem Cloud Credits

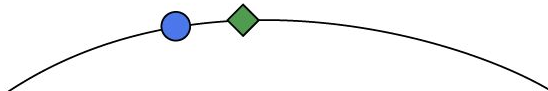

Google for Developers

Step 1: Visit trygcp.dev link

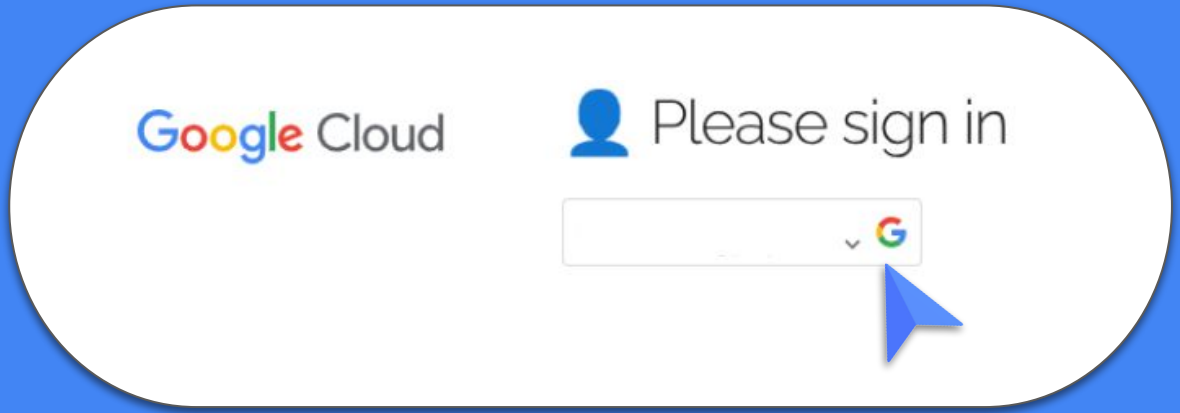

Claim your credit using the link below:

trygcp.dev/claim/deveco-gdg-37291127582

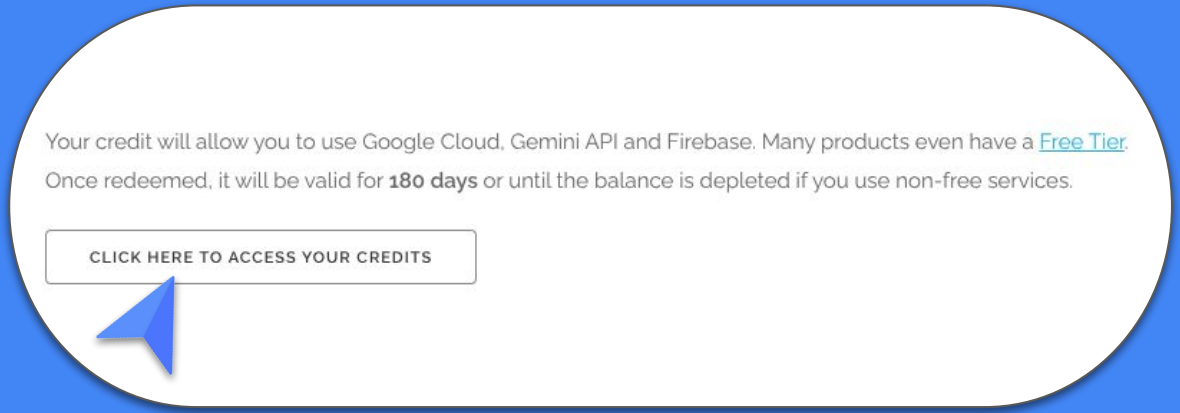

Step 2: Sign in with gmail

Make sure to sign with the same Google account as used in Google Cloud Console.

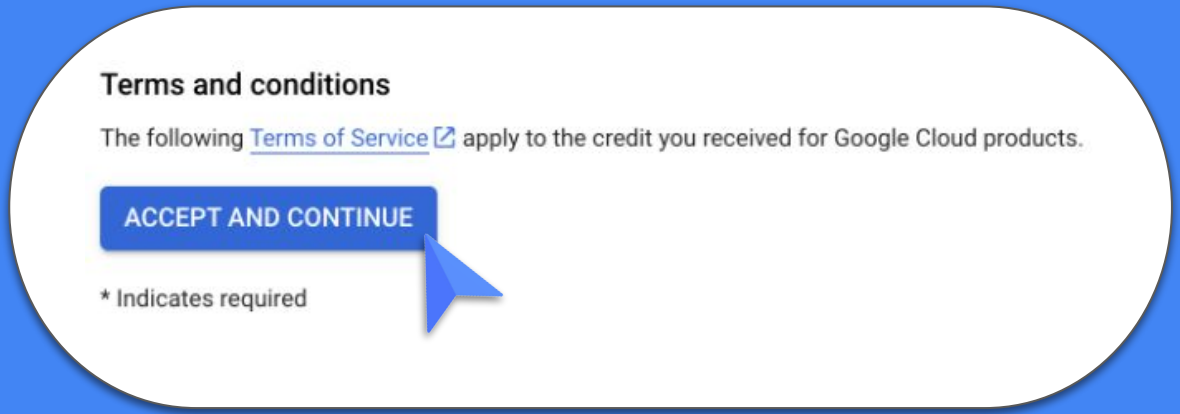

Step 3: Access your credits

Upon arrival at the site, you will be prompted to click a button to access your credits.

Step 4: Accept T&C

On the next page, you will find editable fields for your **First** and **Last Name**. Please verify that these details are accurate and that you are signed into the correct account. To move forward, review the Terms of Service and then click the blue "**Accept and Continue**" button.

Create a new project in Google Cloud Console

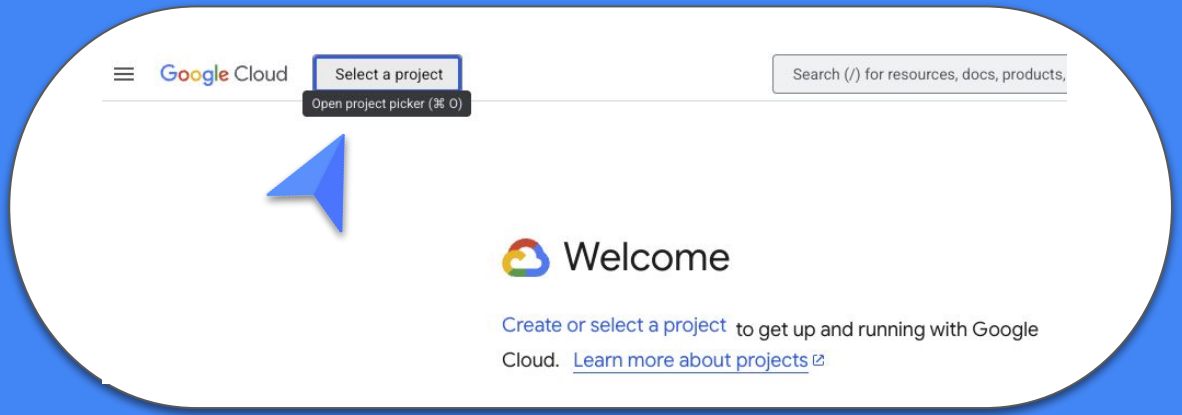

Google for Developers

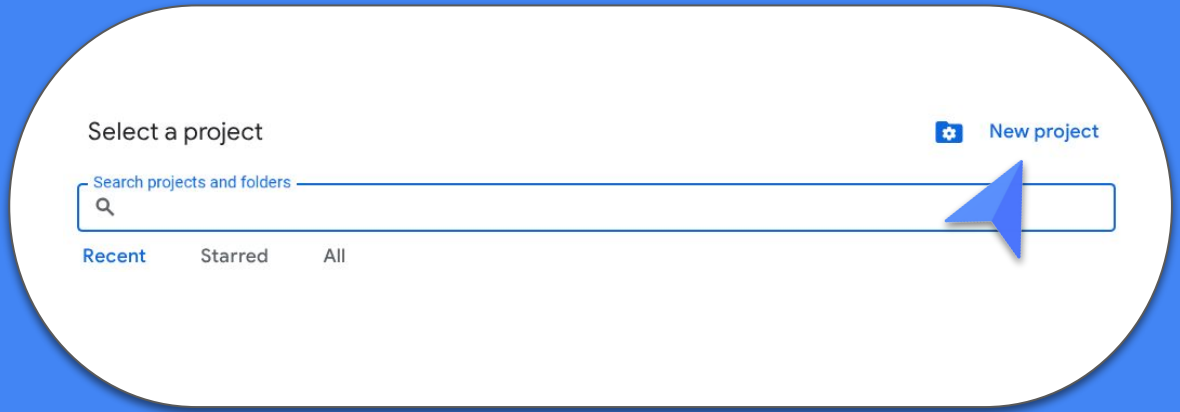

Step 1: Click 'Select a project'

Go to https://console.cloud.google.com/ and sign in with your Gmail account. If you're new, you may be prompted to sign up and activate the Google Cloud Free Program. Once you successfully log in, locate the dropdown menu labeled '**Select a project**' or '**My first project**' next to the Google Cloud logo and click on it.

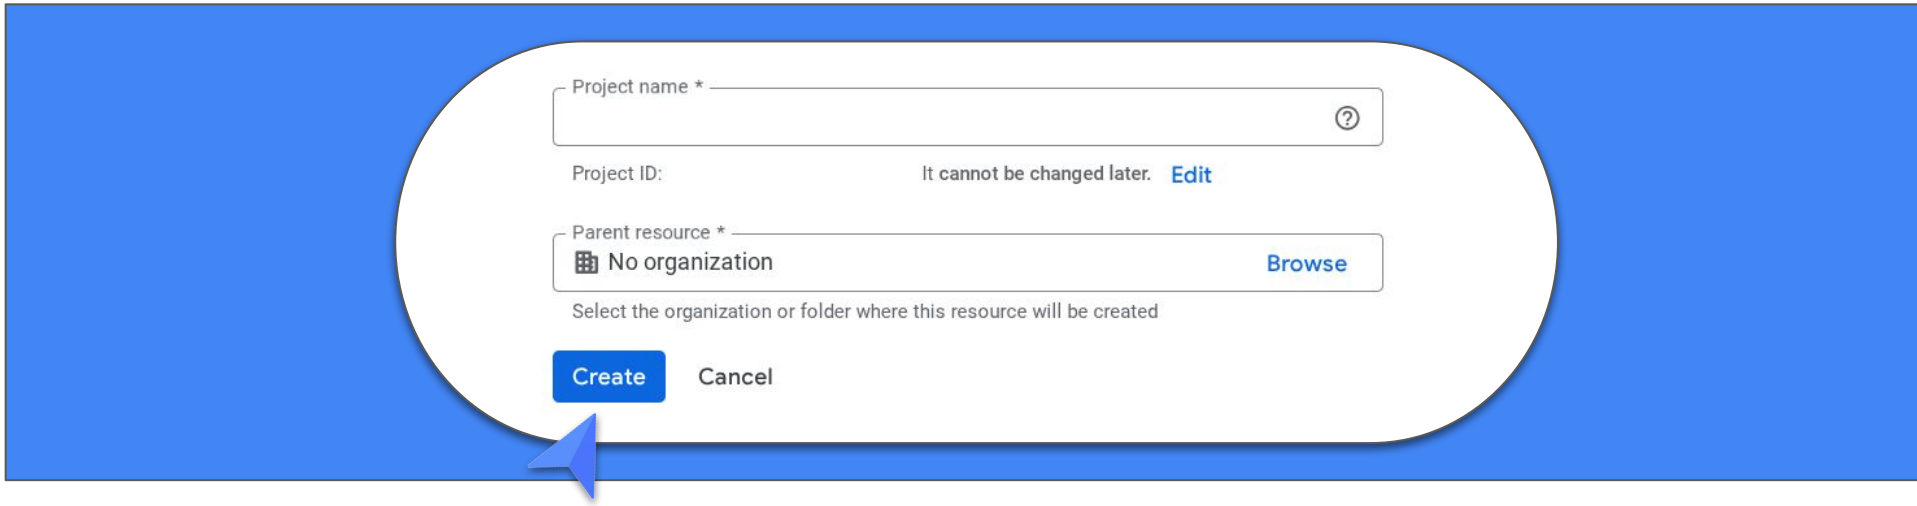

Step 2: Click 'New Project'

Locate and click the blue '**New Project**' link on the right side of the screen.

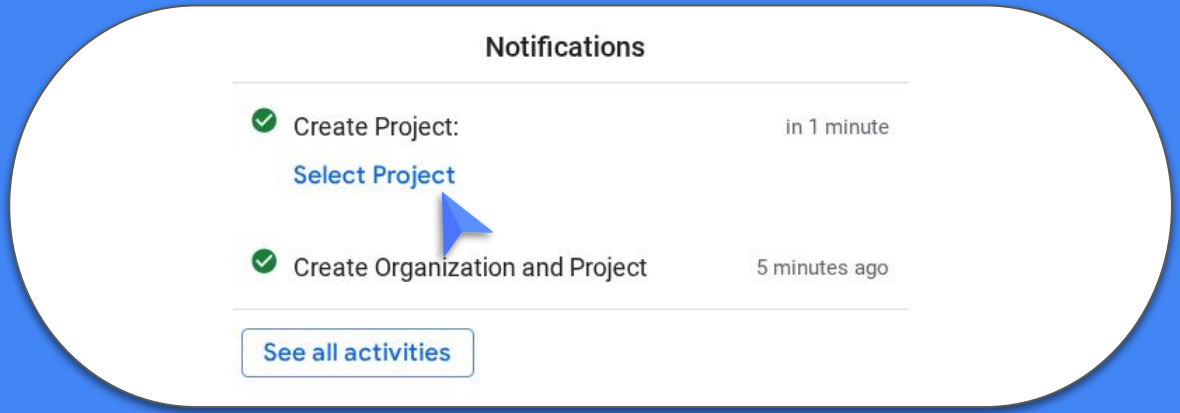

Step 3: Enter project information

Enter a name for your project and keep 'No organization' selected under the parent resource. If a prompt appears asking for a billing account, select 'Google Cloud Platform Trial Billing Account' from the dropdown menu, then click the blue 'Create' button.

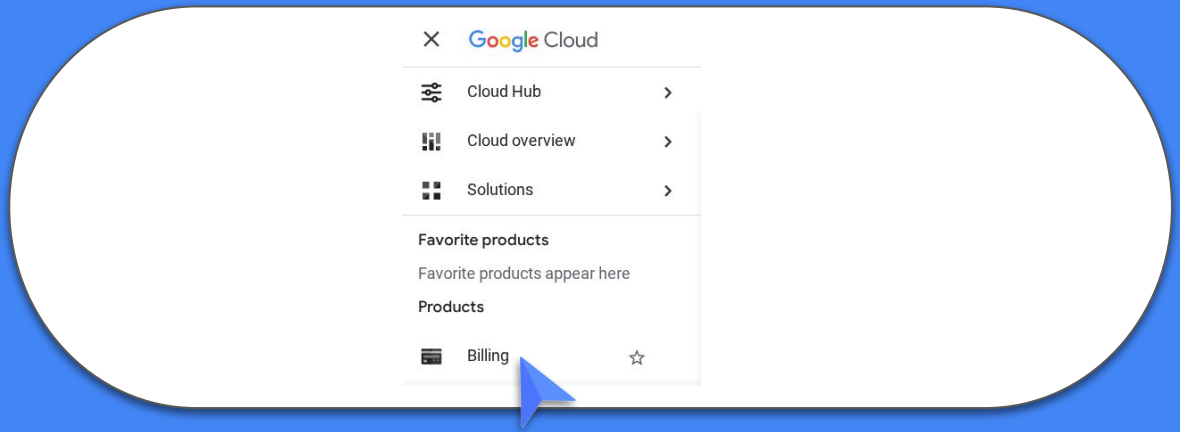

Step 4: Select the project

When the pop-up on the right-hand side appears, click 'Select Project.' Alternatively, you can follow a similar path to Step 1: click the dropdown menu next to the Google Cloud logo, but this time, choose your newly created project.

Step 5: Billing setup

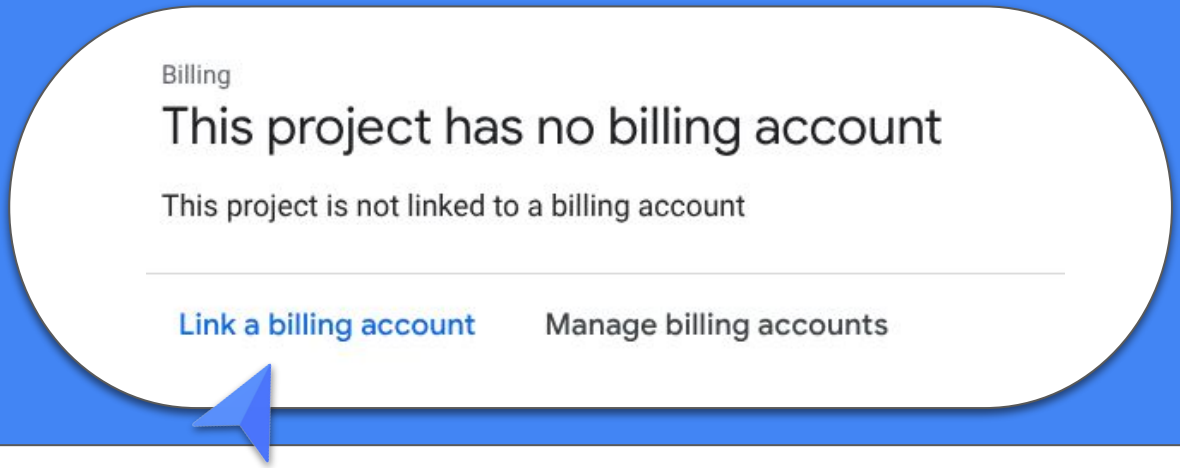

Open the Navigation menu (top-left) and click on 'Billing' under the Products section.

Step 6: Link a billing account

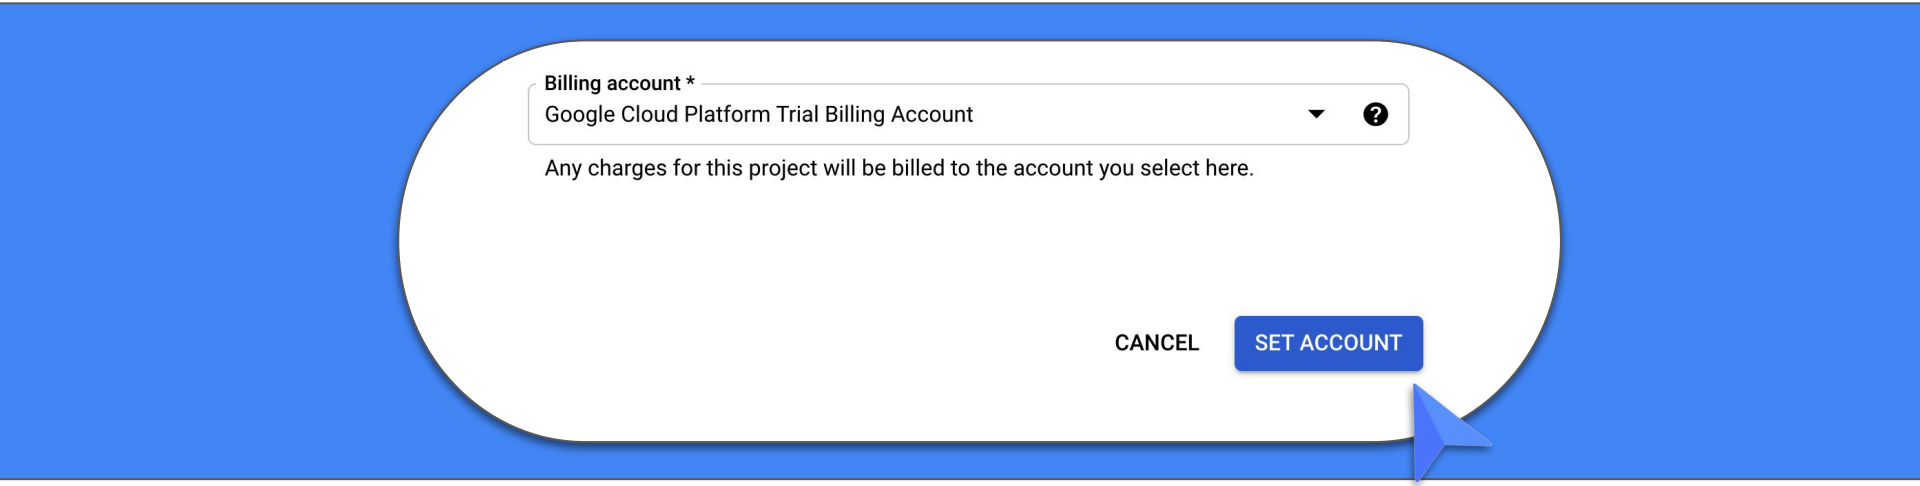

A notification will appear stating that this project has no billing account; this is expected.

To link one, click 'Link a billing account.'

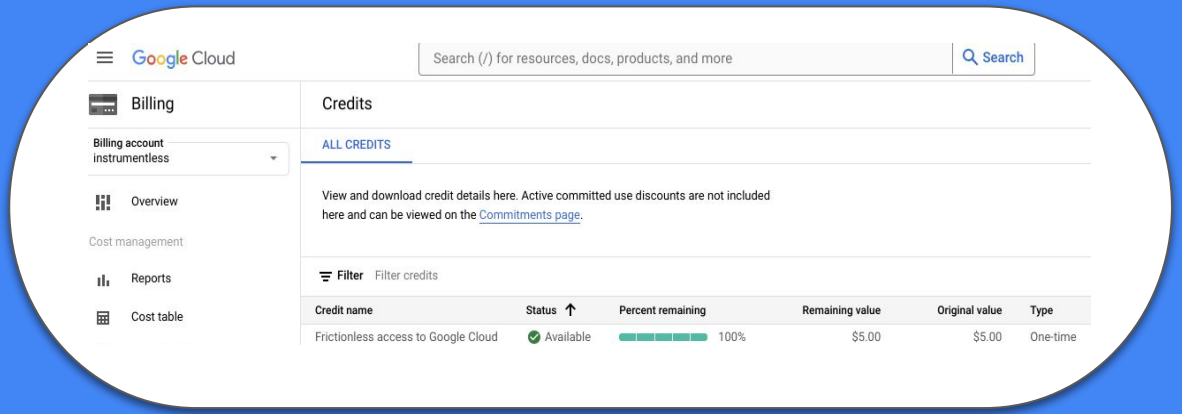

Step 7: Select the correct billing account

Select 'Google Cloud Platform Trial Billing Account' from the dropdown menu. Then, click the blue 'Set account' button below to confirm.

Step 8: Check the credits

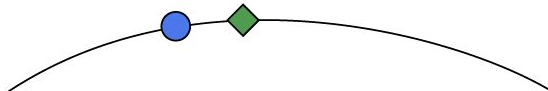

On the left-hand side of the Billing page, click on 'Credits.' Here, you can view your newly activated credits and track important details such as the start date, end date, and the percentage remaining.

Step 9: Optional - Update billing account name

If you have multiple Cloud Billing accounts with similar names, you might want to modify the name of each billing account to help you distinguish between accounts. Don't include sensitive information such as personally identifiable information (PII) or security data in your billing account name.

1. In the Google Cloud console, go to the Account management page.
2. At the prompt, choose the Cloud Billing account that you want to update.
3. At the top of the page, click **Rename billing account.**
4. Enter a new name for the Cloud Billing account.
5. Click Rename to save your changes.

Troubleshooting

Common issues when setting up the GCP project

Project ID Already Taken

The Project ID must be **globally unique**. If creation fails, your ID is reserved by another user. Try adding a random number or a unique suffix to the ID field.

Cannot Enable Services

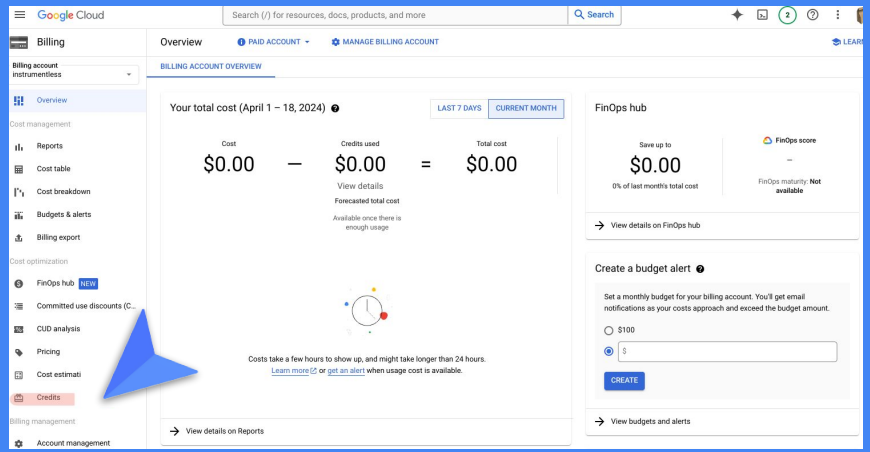

You must ensure the Billing Account is **explicitly linked** to your **new project.** Resources cannot be created or launched until a billing account is associated, even with free credits.

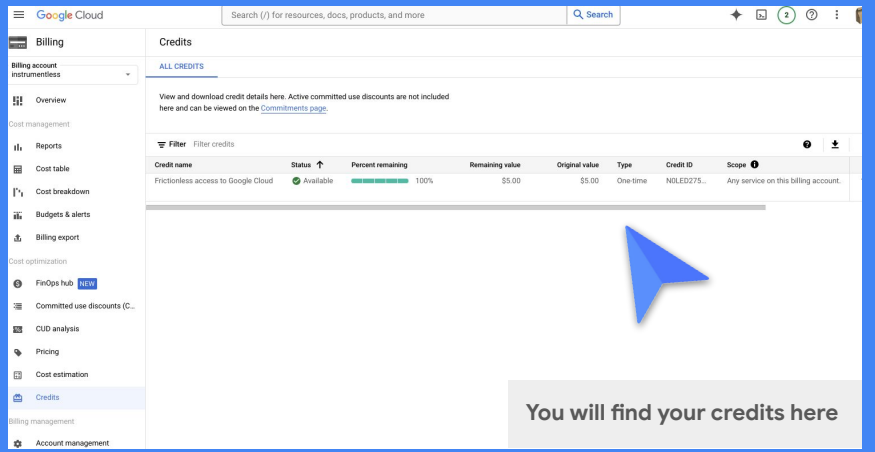

Correct billing account

If the **user ALREADY has a existing billing account** make sure they use the correct one. It must be: “Google Cloud Platform Trial Billing”.

Issues when attempting to redeem credits

Users may be confused about where the credits can be found. Direct them to the **Credits** tab on the console page.

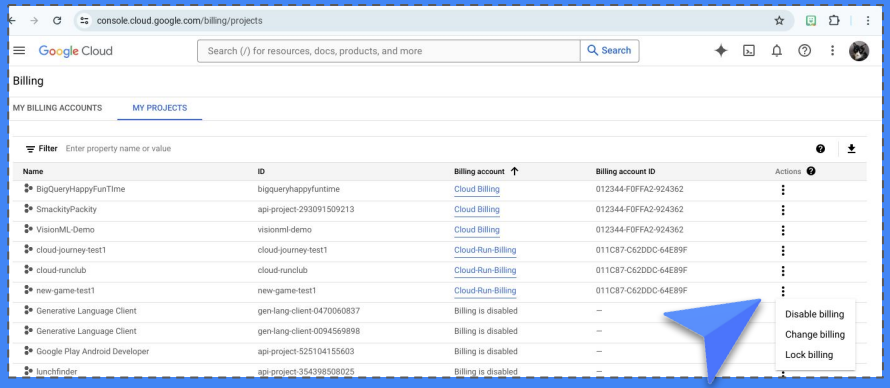

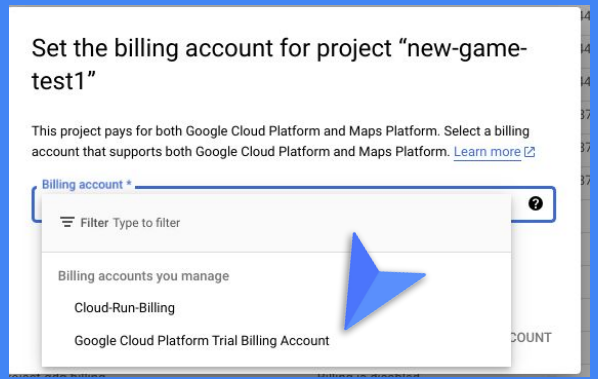

Issues when attempting to redeem credits

If the user ALREADY has a existing billing account make sure they use the correct one.

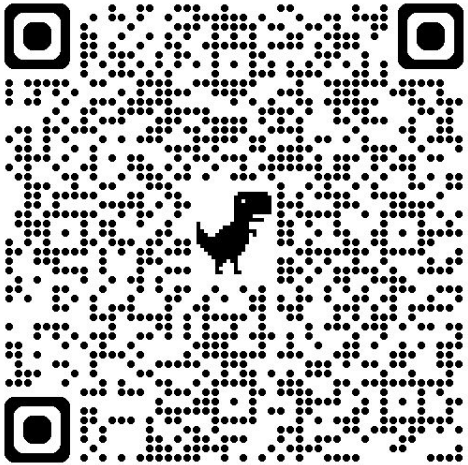

1. Click on the 3 Dot menu on the project, and select “Change Billing.”
2. From the drop down select “Google Cloud Platform Trial Billing”.
